

HCRA

Project Management and Supervision

2 Days or 4 Half-Days

HCRA Approved Course | HCRA Exam Included

Day-to-day project management and supervision at a job site are amongst the most important elements contributing to the success or failure of a project. In this course, using the construction process, you will learn about the critical elements of project planning as well as the role and responsibilities of a site supervisor.

LEARNING OBJECTIVES

At the end of this course, you will be able to:

- Describe the major elements in planning and managing a construction project
- Describe the on-site role of a project supervisor in implementing and managing the project plan
- Understand regulatory and legal responsibilities of a site supervisor

WHO SHOULD ATTEND

- Those wanting to learn about the construction process
- Those interested pursuing a career path in construction management
- Builders or vendors applying for a license as a first-time applicant who needs to meet competency requirements put in place under section 38 of the New Home Construction Licensing Act, 2017 (NHCLA)
